Re Application of: BROWN et al.

Application No.: 10/047,440

Filed: January 14, 2002

Docket No.: 542286CON (3600-226-01)

Examiner: BOS, Steven J.

Group Art Unit: 1754

Confirmation No.: 4701

For: PROCESS FOR PRODUCING NIOBIUM AND TANTALUM COMPOUNDS

**THIRD SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**  
**PURSUANT TO 37 CFR 1.97(b)**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

September 7, 2004

Sir:

The attention of the Patent and Trademark Office is hereby directed to the documents listed on the attached Form PTO-1449. One copy of each of these documents is attached. This Supplemental Information Disclosure Statement is being submitted before issuance of an Office Action on the merits (after the filing of the Request for Continued Examination) and before any Final Office Action or Notice of Allowance. Please note that the Japanese versions were previously submitted to the United States Patent and Trademark Office in an Information Disclosure Statement filed June 8, 2004, with the Request for Continued Examination.

Should a first Office Action cross in the mail with the filing of this Supplemental Information Disclosure statement, then applicants respectfully petition under 37 C.F.R. § 1.97(c) to consider the documents set forth in the Information Disclosure Statement.

Second Supplemental Information Disclosure Statement  
U.S. Patent Application No. 10/047,440

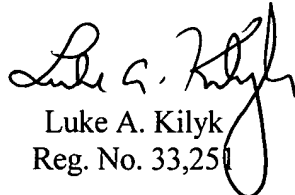

The above information is presented so that the Patent and Trademark Office can, in the first instance, determine any materiality thereof to the claimed invention. *See* 37 CFR 1.104(a) and 1.106(b) concerning the PTO duty to consider and use any such information. It is respectfully requested that the information be expressly considered during the prosecution of this application, and that the documents cited in the attached Form PTO-1449 be made of record therein and appear on the first page of any patent to issue therefrom.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claim in this application and applicants determine that the cited documents(s) do not constitute "prior art" under United States law, applicants reserve the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicants further reserve the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

If there are any fees due in connection with the filing of this response, please charge the fees to Deposit Account 03-0060.

Respectfully submitted,

  
Luke A. Kilyk
